

<i>Title and Code of Course:</i> ERPB-MAD 3491 LEXICOGRAPHY AND TERMINOLOGY			
<i>Instructor's Name:</i> Dr. M. Pintérné Dr. Márkus Katalin PhD			
<i>Instructor's Email Address:</i> p.markus.kata@kre.hu			
Credit Point Value: <b>6</b>	Number of Lessons per Week: <b>2</b>	Type of Course: <b>Seminar</b> <input checked="" type="checkbox"/> <b>Lecture</b> <input type="checkbox"/>	Method of Evaluation: <b>Oral Examination</b> <input type="checkbox"/> <b>In-Class Presentation</b> <input checked="" type="checkbox"/> <b>Other</b> <input type="checkbox"/>
<b>Course Description:</b>			
<p>Two sets of practical skills will have been obtained at the end of the course: first, students acquire skills required of a practical lexicographer (methodologies and principles of dictionary compilation; learning to use dictionary production software); and those of a terminologist (principles and strategies of terminology development). Second, students are also expected to develop awareness and skills of an effective and competent user of both lexicographical (i.e., dictionaries) and terminological (i.e., terminological databases, term conceptions, ontological principle) products. The process will require comparative analyses of dictionaries and terminological databases in connection with their use in applied language activities (e.g., translation, interpretation, editing, term management). With the theoretical background that will be provided in the course, students are expected to develop critical thinking skills in both lexicography and terminology. This will enable students to distinguish between high-quality and low-quality lexicographic and terminological practice.</p>
