| <p>Course Description: This seminar dives deep into the practical aspects of language teaching, with a particular emphasis on engaging young learners and/or teenagers. The approach is task-based and experience-based: course members will be asked to plan, try out (peer-teach) and reflect upon a variety of classroom activities. The overall aim of the course is to help participants develop into aware, competent and principled professionals – and to prepare them for their teaching practice.</p> | | | |
