---------------------------------	---	--	---

Course Description:

This course offers a general introduction to the major areas of linguistics in general and in English linguistics in particular including phonetics phonology, morphology, syntax, semantics, pragmatics as well as historical linguistics, language acquisition, and communication. The purpose of this course is to make the students familiar with the basic notions and concepts of linguistics as well as to introduce the most important methods of linguistic analysis. Students may miss 3 classes in the course of the semester including illnesses and family emergencies. The final grade will be based on the results of the 4 tests (90%), home assignment and participation (10%).

Bibliography: Compulsory readings:

O'Grady, William, and John Archibald (2015). *Contemporary Linguistic Analysis: An Introduction* (8th ed.). Toronto CA: Pearson, Chapters 1-7.

dictionaries, papers,, phonetic alphabet
