### A tantárgy rövid leírása / Course description:

The goal of the course is to examine and understand the meaning and outworking of Christian spirituality in everyday life, in its different aspects and areas, by learning and thinking together about questions that are less often addressed in Christian theology and spirituality.

Course grade will be based on students' active participation in class (please note that no more than three absences are allowed), an oral presentation on the topic of their choice, and a final (2-3 pages) written reflection based on the compulsory readings and class discussion.
