**Course Description:**

The aim of this course is to introduce students to the practice of qualitative research. During the course we will focus on the method of qualitative interviewing and the analysis of the interview data. After getting acquainted with the principles and practicalities of interviewing and analysis, students will conduct two interviews on their own chosen topic. They will also transcribe and analyze these interviews. Learning about the basic functions of the ATLAS.ti qualitative data analysis software in class, they will be using these in their analysis.
