| <b>Course Description:</b><br><br>This seminar dives deep into the practical aspects of language teaching, with a particular emphasis on engaging young learners and/or teenagers. The approach is task-based and experience-based: course members will be asked to plan, try out (peer-teach) and reflect upon a variety of classroom activities. The overall aim of the course is to help participants develop into aware, competent and principled professionals – and to prepare them for their teaching practice.                                       |                                         |                                                                                                                  |                                                                                                                                                                                        |
